In 2015, the Communications & Publications Committee transitioned to become the ARLIS/NA Editorial Board. As part of that transition, a new structure for the ARLIS/NA website (AWS) was created. The new positions, information architect and content editor, were recently filled; Tessa Brawley-Barker, information architect, began in December and Mark Pompelia, content editor, will begin in March 2016. During this transition, I have continued to update the News & Events section of the AWS. Robert Kopchinski, ARLIS/NA executive director, has been making all other website updates.

More significant changes made to the AWS include:

- Rearrangement of menu on homepage to accommodate a menu item for the Learning Portal.
- Change to committee pages to reflect charges rather than mission statements.
- Introduction of Public Policy Committee’s PPC News Alert, Featured Art Library, and Professional Development Committee Bulletin features.
- Reorganization of What Our Members Are Saying feature.
- Title Histories of the Periodical Literature of Art & Design was added to the ARLIS/NA Research & Reports page. This was a vestigial project of the Communications & Publications Committee.

Multimedia & Technology Reviews (MTR) Co-editor Elizabeth Schaub, stepped down in August. Her replacement, Gabriella Karl-Johnson, began in September. More recently, Hannah Bennett, the creator of MTR, has indicated she will be stepping down as of March. A call for a new co-editor has been issued.

Media Editor Elizabeth Berenz has recently communicated her intention of stepping down as of March. A call for a new media editor will be issued.

More detail on the activities of the Editorial Board can be found in the annual reports for ARLIS-L, ARLIS/NA Reviews, Art Documentation, Media, Multimedia & Technology Reviews, and the website.

Plans for 2016:

- Work with AWS editors to determine best distribution of editing responsibilities.
- Train AWS editors in Joomla.
- Consider the possibility of and placement of ads on the AWS.
• Determine logistics for feeding ARLIS/NA group blogs into the News & Events section and for automating social media posts.
• Appoint new media editor and Multimedia & Technology Reviews co-editor.
