Scope Drifting Toward
Data Management and Institutional Collection Building

Kate Thornhill, Repository Community Librarian
Oregon Health and Science University Library
What does VR look like at your institution?

BUILD DIGITAL COLLECTIONS & ARCHIVES TOGETHER!

Lesley University Libraries
John & Carol Moriarty Library
(College of Art & Design Library)
Digital Imaging and Scholarship Services
Digital Imaging and Scholarship Services (DISS)

- digital evidence and methods
- digital publishing and authorship
- digital curation/data management
- digital use and reuse of digital evidence

Digital Assets Management Systems
Institutional Repositories

Data Management
Data Information Literacy
Digital Curation
Digital Stewardship
Digital Media Management
How did DISS get there?

- Importance of data information literacy education and instruction
- Many digital projects across campus, not just the visual arts
- Faculty buy-in, trust, and identify that data management important skill
- Administration and Marketing interested in using and preserving institutional materials
- Library budget justification and resource cutting
- Consortium members moving toward SharedShelf
- Initiative to expand digital collections - already doing ETDs at the main library
