The Belgrade City Library is the largest lending library in Serbia. The poster presents the work and variety of programs of the Art Fund. The Arts Fund, as a part of the Lending Department, was established in 1986 to have unique, specialized library holdings of books from the fields of visual and applied arts, design, theatre, film, photography and music. The department also contains a reference collection of dictionaries and encyclopaedias, as well as magazines and periodicals from all areas of art. The literary library holdings contain 18,000 publications in Serbian and in other languages (English, German, Hungarian, French), which may be viewed in the Reading Room. The Reading Room is also used for hosting cultural and art events. As librarians and editors of cultural programs we organize a wide range of programs in the areas of visual arts, architecture, archaeology, music, philosophy and children’s workshops. A special part of the Art Fund is the “Atrium” Gallery. The gallery is used as a place for art exhibitions (both group and individual) of renowned artists, both local and foreign, which also include professional reviews of arts critics. Our programs and exhibitions are visited by a large number of people. So, at the poster session I will try to show how and in which ways we attract visitors, accompanied with lots of pictures and words.

Why is the Belgrade City Library the cultural heart of Belgrade?

- **CHILDREN**
  - Favourite place for workshops and meetings with poets

- **STUDENTS**
  - Place for reading and studying

- **COLLEAGUES**
  - Place for education

- **PUBLISHERS**
  - Place for presentations of latest editions

- **TOURISTS**
  - Historical place

- **PUBLIC**
  - Place for lectures, promotions, exhibitions and concerts
