Identifying, scoping and exploring a collection:

**IDENTIFY**
Where can you find a collection?

- Cultural Arts Data Digital Library
- Open City Data

**SCOPE**
Is metadata available?
YES? Can you get it in a usable and workable format?

NO? Can you create metadata? Can you start small and try to justify a larger project?

How does the collection connect to your research community?
What kind of stories can you tell with it?
What kind of research can you support?

**EXPLORE**
Propose an activity
- Clean metadata
- Create/Augment metadata
- Visualize
- Machine learning
